TARIFF BILL GOES THROUGH HOUSE AND UP TO SENATE

SENATE WILL FIX IT OVER

Aldrich Will Try to Restore Part of Iron and Coal Duties—Not to Raise Gloves, Etc.

- DISPUTED ITEMS
- Items that were in dispute in the Payne bill, as finally fixed by the house:
 - Lumber, half the Dingley rates.
 - Hides, free.
 - Oil free.
 - Barley, increased from 15 to 24 cents a bushel.
 - Barley malt, increased from 25 to 40 cents a bushel.
 - Tea, free.
 - Coffee, free.

WASHINGTON, D. C., April 10.—Such rapid work was done by the enrolling clerks of the house that the Payne bill, which was passed by that body at 8:15 last night was ready for presentation to the senate today.

At noon, when the senate met, Mr. Aldrich, the clerk of the house, was in waiting and immediately after prayer Vice President Sherman recognized him as the bearer of a message from the house.

As soon as it was officially disclosed that it was the tariff measure that he had brought over, Senator Aldrich at once made a motion that it should be referred to the finance committee which was done.

WASHINGTON, D. C., April 10.—The Payne tariff bill is now up to the senate. Just five months today the house ways and means committee began the preparation of the measure, which was passed after being amended in several particulars by the house last night.

It is calculated that there were about two million words spoken in the house debate since the special rules session began on March 15, pretty evenly divided between defense and exhortation of the bill.

It has taken over 1,100 pages of the congressional record to contain all that has been said on the subject. The senate will make a great many changes in the house bill and the measure which finally passes the senate will be much more nearly like the bill which will become law. It is the frankly expressed opinion that the

KELLOGG FLAYS ROCKEFELLER AND HIS ASSOCIATES

LIVING, DECEIT AND COERCION UNAMERICAN METHODS

"GOD PITY THE COUNTRY"

SAYS KELLOGG IF SUCH METHODS ARE TO RULE

TRUST ACTS IN BAD FAITH

Behind Every Keyhole in Their Signalless Building is a Crafty Lawyer, Says Attorney

ST. LOUIS, Mo., April 10.—Attacking with bitter sarcasm Rockefeller, Archbold and the men associated with them in the Standard Oil company, "Trust Buster" Frank B. Kellogg today began the rebuttal arguments that end the government case to dissolve the big concern.

"The men who contend nothing can be said against the Standard company have not read the record of this case," he declared. "Through bogus companies the Standard went through this country making war on independents and destroying enterprises for the purpose of monopoly."

"Why did the Standard buy and dismantle a hundred refineries throughout the country? Why were they indicted in Georgia? Why is the whole country strewn with indictments of them? Why have they been found guilty in nearly every court?"

"I cannot believe that lying, coercion, misrepresentation is the ideal of American business. God pity the American people when they adopt such standards for their commercial life."

Standard a Trust

In the securities case, Hill, Hariman and Morgan traded stocks as did Standard Oil owners, Kellogg declared. He said it was an easy matter for men to avoid the law by this device.

"The Standard is a trust," he declared. "It was so defined by the Ohio supreme court. The defendants in the various companies combined. That is not true. Their own records show that 2,000 persons other than Rockefeller and his associates owned stock in these companies."

"In the contempt proceedings brought after the Ohio decision Rockefeller himself testified that the trust had dissolved and the companies were again separate and competing companies. By their own evidence they prove that they formed another trust in New Jersey."

Defective Memory

"Both Rockefeller and Archbold were so burdened with details in the case they could not remember anything important. Mr. Rockefeller could not remember the grave matters that threatened his business, his honor and his liberty."

"It was a pitiable sight. Neither of these men could remember what became of \$23,000,000. Their counsel has tried to laugh the disappearance out of court by saying they will not gratify the curiosity of the government's counsel."

"As to the good faith of the Standard Oil company, look at its building. Why there is not a sign on it. A man in one room does not know what is going on in the next room and behind every keyhole is a lawyer. They have come to be called 'keyhole lawyers.' Is that a sign of good faith?"

COURT QUASHES THE HASKELL INDICTMENT

- TUSLA, Okla., April 10.—A motion to quash the indictments against Gov. Haskell and six of the influential Muskogee men charged with being connected with town site frauds in the Indian territory in 1901 was sustained by Federal Judge Marshall at Tulsa today.
- Dist. Atty. Greer immediately announced a special meeting of the grand jury to reconsider evidence regarding the alleged frauds but it is believed here it is improbable Haskell will ever be reindicted.

A social evening will follow the business session.

THE SPIRIT OF EASTER

JOHN THORNBURY QUILTS LA CROSSE

POPULAR OPTIMIST WILL LOCATE ELSEWHERE

MINNEAPOLIS HIS NEW HOME

Enters Big Brokerage Firm There—22 Years in Business Here Made Him Army of Friends

"I am going away from here."

John Thornbury.

While there have been rumors of Mr. Thornbury's permanent departure from La Crosse, it had been the belief of his intimate friends—that the popular "Silk King" would finally arrange to resume business in La Crosse. This idea was dispelled today, when the positive announcement was made that he would go to Minneapolis. He leaves for that city Tuesday.

Mr. Thornbury enters the firm known as the "Hamilton, Flick Brokerage." It is one of the best known dry goods brokerage concerns in the west. Mr. Thornbury will be associated with the firm in the capacity of buyer, the business being the buying and selling of stocks, conducting of sales, etc. The position of buyer in such firms is one of great responsibility. For "goods bought right are easily sold right."

The withdrawal of Mr. Thornbury from La Crosse will occasion genuine regret. For 22 years he has been known to the people of the city, old and young, and the boys on the street are his "pals" and he calls them all "son." Always an optimist, John Thornbury has met the world with a smile, a cheery word and a funny story, until his going seems the taking from La Crosse of a vital element in its business and society.

Mr. Thornbury's first venture in merchandising in La Crosse was as manager of the dress goods and silk department of the old Park store, when it was on South Fourth street. Later he went into the Trade Palace, the Paul-Smith store, as owner and manager, and when the New Park Store was built he was associated with it in the old capacity. For 22 years as a buyer, manager and owner, he has been a factor in the daily life of the business circle, and there is probably not a woman in La Crosse who has not bartered over John Thornbury's counter.

In social and club circles Mr. Thornbury will be missed as much as in the business field. His line of talk in "lighter vein" was the delight of friends and acquaintances in the chatty hours after business closed, and his ready sympathy with the pleasures and sorrows of others has endeared him to those who know him best.

Perhaps the regret at the departure of Mr. Thornbury might be mitigated were he to have his home here, for in taking Mrs. Thornbury away La Crosse women will lose a treasured friend and associate.

GEORGE KINGSLEY ON STAND TELLS OF STONE MEETING--TO GO AFTER GANG

Hambrecht Resolution to Recover State Moneys

MADISON, Wis., April 10.—(Special.)—George Kingsley, deputy game warden from La Crosse, was on the stand in the primary probe this afternoon. He swore that he was at the now famous meeting at Warden Stone's office. He said he had agreed to "stand for" \$250 of the Stone money, that Rickman had agreed to \$250 and Johnson to \$150. This differs somewhat from other stories.

Kingsley said that Senator Thomas was in the midst of the party during the discussion and heard it all. Thomas had declared that he was there as a guest and paid no attention to what was said. Thomas is a lawyer, and if he heard the talk must have known that subornation of perjury was being planned.

Kingsley testified that Stone had said that the deputies would not have to take the stand because the investigation was a fake. This caused a laugh on Stone.

Following the Kingsley testimony, Hambrecht offered two resolutions, both of which were unanimously adopted by the committee.

One directed that the evidence of all wardens who had admitted having done political work and charged their expenses to the state in this or former campaigns be certified to the governor and attorney general for action to recover money so spent.

The other directed that the testimony of all state officers under civil service, who had admitted doing political work during the last campaign, be certified to the governor, attorney general and civil service commission for such action as was found proper.

GOV. LILLEY DYING

HARTFORD, Conn., April 10.—Gov. Geo. L. Lilley, who is hovering between life and death at his home, has but a few hours to live, according to a statement issued today. The governor has been in an unconscious condition since last evening and at the present time his entire family are gathered at the dying man's bedside.

ROOSEVELT ENTERS CANAL

PORT SAID, April 10.—The steamer Admiral, with ex-President Roosevelt aboard, started through the Suez Canal at 7:50 o'clock this morning. A great crowd witnessed the departure of the ship and cheered Mr. Roosevelt as he stood on deck and waved his hat in response.

GAVE HIS WIFE TO A FRIEND OF HIS

CHICAGO MUSICIAN WANTED HER TO BE HAPPY

SHE LOVED THE OTHER MAN

So Paul Handke, Grieving, Gave Up Bride and Went Home to His Little Boys

CHICAGO, April 10.—"I have resigned my wife to Herr Capl Wunderle. She said she loved him and he said he loved her. I agreed that if they loved each other, I would not stand in the way of their happiness."

In these words Paul Handke, a member of the Thomas orchestra, today told the story of his renunciation in favor of his friend, a fellow musician. Mrs. Handke has brought suit for divorce and her husband says he will not contest it. When she gets her decree, she says, she and Wunderle will marry.

"Twenty years ago, I met my wife in Munich," said Handke. "I adored her and married her and then we came to this country. I came to Chicago and played with the Thomas orchestra. Seven or eight years ago, I met Herr Wunderle. He became my friend and I took him to my home. His wife had run away from him and he procured a divorce from her."

"Three weeks ago my wife went away. I went after her and brought her home. Then Herr Wunderle came, after her in a big automobile, and they went away together. The three of us had a talk first and agreed that it was best, if my wife loved him better, that she should become his wife. But they took my little girl along with them and I did love that little girl."

"I have a nice little flat and it is fixed up fine. I tried to make it nice for my wife. Now she is gone, I am trying to make it a happy place for my two boys. My wife came there yesterday and took away all her things and I know it is all over."

"Herr Wunderle has left the orchestra. I don't know what he is doing now but I hope he is prosperous so he can make my wife happy. She was such a good girl. But you never can tell what a woman will do."

Presenting a brave front, Handke, who is second trumpeter, continues to occupy his place in the orchestra at recitals.

"It has almost broken my heart," he said, "and I could scarcely play yesterday."

Wunderle also discussed the case briefly today.

"Mrs. Handke and I are completely in love with each other," he said. "We have the same temperament. We are everything to each other. Of course, since this thing happened Handke and I don't speak but I feel sorry for him. I sympathize with him. My wife, you know, ran away from me and married another player of the orchestra."

GOVERNOR TELLS SAME STORY; DEPUTY WARDEN TELLS ANOTHER; M'GILL SPRINGS A SENSATION

MADISON, Wis., April 10.—(Special.)—The governor didn't monopolize the headlines at the primary quiz today. He had to share them with L. E. McGill of Ladysmith, who let go of some "hot stuff" as to how he spent \$4.75 of "Uncle Ike's" money.

McGill swore that he received \$450 DIRECT FROM EDMONDS and \$25 from L. E. Dresser. He said he used this money to get out literature urging the nomination in the primary of FOUR MEN, among them TWO LEGISLATIVE CANDIDATES AND A CONGRESSMAN.

The campaign literature was printing urging the nomination of Jenkins for congress against Lenroot, Thomas for the state senate against McArthur, and Art Erickson for the assembly. Thomas was elected. The significant thing about this testimony is that McGill says he got most of this money DIRECT FROM EDMONDS, STEPHENSON'S MANAGER, and that he SPENT IT TO HELP NOMINATE MEMBERS OF THE LEGISLATURE.

This is the most direct evidence of what is probably a violation of the corrupt practices act of anything that has been drawn out in the probe thus far. The law forbids, under heavy penalty, any person spending money to aid an election in a district of which he (the donor) is not a resident. The mooted question in all these cases of violation is where the responsibility rests. Of course it would be claimed by any one so charged, that he knew nothing of the way the man to whom he gave the money was going to spend it, and as the man who spends it last is usually within the election district in question, he has not violated the law. The fact is that there was a violation of law in spirit, with nobody whose responsibility can be fully traced or exactly fixed.

DEPUTY DECLARES STONE SAID THAT GOVERNOR SHOWED KNOWLEDGE OF FUND

Mr. Davidson Said "You Boys Are Doing Too Much"

MADISON, Wis., April 10.—(Special.)—"You boys are doing too much."

That is what Edward O'Connor, deputy game warden from Hancock says State Game Warden Stone told him Governor Davidson said about the money Stone gave him as a contribution from the deputy wardens.

O'Connor followed Governor Davidson on the stand this morning in the senatorial primary quiz. He told of meeting Stone in the hotel in Madison. He said it was there he and Stone talked about the donations to the governor's campaign expenses.

It was the second time Stone gave the governor money, the second \$500 he laid upon the executive's desk, that the governor made the remark that the boys were "doing too much." O'Connor remembers all the details clearly, and was very positive of the conversation in detail, and that the exact language imputed to the governor by Stone was "You boys are doing too much."

THE IMPORTANCE OF THIS TESTIMONY LIES IN THE FACT THAT THE GOVERNOR HAD DENIED THAT HE KNEW WHAT THE MONEY WAS FOR OR FROM WHOM IT CAME.

JOINT INVESTIGATION CONCLUDED TONIGHT

- MADISON, Wis., April 10.—The joint committee of the legislature investigating the senatorial primary ends its labors tonight. The probe will be picked up by the new senate committee next Tuesday and carried to its conclusion.
- The report, or reports, of the committee are not expected to be made to the legislature immediately, as none have been fully prepared. The senate members, it is said, will file but a brief report, expecting to supplement it later on. The assembly is said to be split up. Bray, Hambrecht and Legals will each father a separate report.

NEW BONNETS TO SHINE TOMORROW

There is to be no disappointment for the fair sex tomorrow if Weather Observer E. C. Thompson can help it. He has ordered nice warm and bright weather, possibly cloudy part of the time, but with ample opportunity to display the thousands of dollars worth of head adornments which La Crosse merchants have disposed of lately.

MRS. DAVIS DIES

LITTLE ROCK, Ark., April 10.—Mrs. Jeff Davis, wife of the United States senator from Arkansas, died here this morning after a long illness. The entire family was present except the eldest son Wallace. Mrs. Davis is survived by nine children.

DAVIDSON THINKS MONEY CORRUPTS BUT \$107,000 CAN BE RIGHTLY SPENT

Mr. Davidson Said "You Couldn't Find Stone at Times When He Had Fund in Mind"

MADISON, Wis., April 10.—(Special.)—Gov. Davidson explained to the senatorial investigation committee this morning what he did with the \$1200 given him last August by State Game Warden J. W. Stone.

The explanation did not materially from the governor's last statement in the newspapers. The governor said that he supposed the money was a contribution to the campaign fund, but that he never supposed that Stone had that much to contribute personally. It was left in his office by Stone in two different installments instead of three as Stone had testified. The first envelope contained an even \$1,000. The second contained \$200.

The governor was not sure whether he deposited it all at one time or all in the same bank. He made two deposits, one of \$2,000 in the First National bank, and one in the Capital City bank of \$700.

Is Ready to Return Fund

The governor said if it had been collected in any way that was illegal he was ready to return it. He said he had sent for Stone several times, but that Stone was out of town each time. In answer to a question from Senator Huston asking if Stone was out of town continuously, the governor said that this thing had slipped his mind at times, as he had many things to think of besides the game wardens and this campaign fund.

Senator Huston asked the governor if anything had arisen in his talks with Senator Stephenson while on the fishing trip to Wells, Mich., last summer, which might have led to the later conference between Stone and Mr. Stephenson which resulted in Stephenson instructing E. A. Edmonds to give Stone some money to be used in the campaign.

Had Not Talked Politics

The governor answered that he did not talk politics on that trip and that he purposely slept with the hired man in order to keep from talking politics with the other members of the party. He said he never knew until the investigation started that any game wardens had received any Stephenson money. It was a surprise to him.

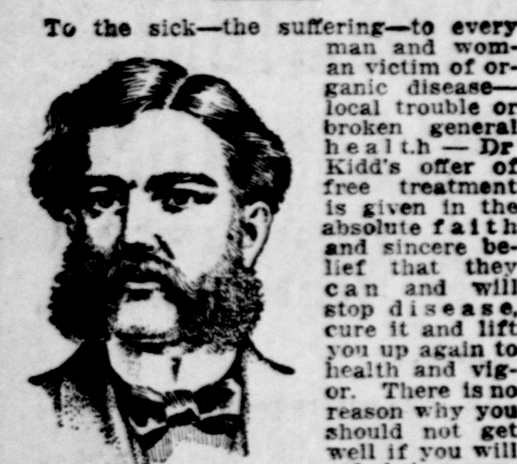

Asked by Senator Morris what he thought about the expenditures of \$107,000 in a primary campaign the governor answered that he thought that much money could be spent legitimately. Later he said that the expenditure of money in campaigns was demoralizing.

HANG VIOLENT NEGRO

HOPKINSVILLE, Ky., April 10.—Booker Brame, 18, negro, was found today hanging to a dogwood tree, two miles from Lafayette, where he was lynched some time yesterday for an attempted assault upon the daughter of W. S. Gee. The negro came upon two girls in the woods and was attempting to drag one of them away when the other with an uplifted axe forced the negro to flee. He was pursued by a posse and captured and returned to the Gee home, where he was identified by the girls. The posse took him out to the woods and quietly lynched him.

GRAFTERS WENT TO DUBUQUE FROM HERE

MARY A. CARTER TRAILED TO
IOWA CITY

ACCOMPLICE THERE ALSO

C. J. Barrett, Alias J. F. Poff, Work-
ed a Coarse Game Here and Went
Without Paying Bill

If Mr. C. J. Barrett is Mr. J. F. Poff, and Mr. J. F. Poff is the man who acted as escort to Mary Carter, the La Crosse police are well on the trail of Mary A. Carter, the woman who successfully defrauded La Crosse merchants several weeks ago by an old check working scheme.

C. J. Barrett did not get any money because his work was too crude, at least that is the way Mr. John M. Holley, Jr., of the State bank explains it. His checks which were presented there were not paid but were sent for collection, and when the man realized this he made his getaway before the authorities got a chance to apprehend him.

While Poff was in La Crosse he represented himself as a horseman from Minneapolis. He was registered at a local hotel under the name of Barrett, and also used the names of J. B. Wgber. He left La Crosse for Dubuque whence the woman had preceded him, but has since left that city for other fields.

Poff is described as a man of medium build, fairly well dressed and of sickly appearance. He neglected to pay his hotel bill here before he went.

RETURNS TO DIE BY WIFE HE MURDERED

SAN RAFAEL, Cal., April 10.—After eluding a posse all night during a wild race through the Marin county hills, Billy Westcott, a halfbreed Indian and notorious desperado, returned to his small mountain ranch at sunrise and committed suicide over the body of his wife, whom he had murdered.

Westcott shot and killed his wife during a quarrel.

A neighbor heard the shots and approached the house but Westcott fired several times at him.

Then the Indian collected food and ammunition, mounted a broncho, and dashed into the hills. A posse followed but soon lost trace of the desperado and returned to the Westcott house early today only to find him dead at his wife's side.

OFFICIAL RETURNS COMPLETED HERE

Supervisor John Swan, County Clerk Charles H. Rawlinson and Justice Clinton W. Hunt, comprising the county board of election canvassers, Friday finished the canvass of election returns at the court house.

Judge John Brindley was re-elected for another term of four years beginning Jan. 1st, 1910, by a total vote of 5,016. B. B. Oltman was elected county superintendent of schools by a vote of 1038 to 562 for B. M. Jostad. The vote on state superintendent of instruction was: Cary, 2203; Hewitt, 675; Hooper, 1081; Wood, 1144; Oltman, 1.

Barnes was re-elected justice of the supreme court by a total vote of 3275.

HUNT BODY OF HEAD HUNTER'S VICTIM

CHICAGO, April 10.—Despite the fact that Dr. Wm. Jones, the noted anthropologist, was murdered by head hunters in Luzon, his research work among the savages of the island will not go unfinished. Dr. Geo. A. Dorsey, curator of the field museum, announced today that S. C. Simms and E. F. Cole, members of the museum staff, had volunteered to go to the Philippines and take up the work. Simms will leave Chicago Sunday and Cole will follow him within a few months. Both men expect to penetrate into the interior and Simms will endeavor to join the band with which Dr. Jones was living when he was slain. Simms declares he will be in no danger. He thinks Dr. Jones was too venturesome and hence met his death. He will attempt to recover the murdered scientist's body.

CANADA TEAM HERE MONDAY

The Regina team from Regina, Canada, will report at La Crosse Monday for practice. This is the first time to train at La Crosse this season. After a week's training here the team will go to Winona for a series, returning to La Crosse for another series, April 28, 29, 30.

Manager Joe Safford has ordered the locals to report here the 19th of April. The squad will number about 20 players which is larger than the squad that has usually reported for spring practice.

LIQUOR APPEALS TO LABOR

CLEVELAND, O., April 10.—The liquor interests will appeal to union labor to aid them in their fight against the rapidly growing power of the anti-saloon forces. The movement was launched in Ohio last night when leaders of state and national organizations of the liquor men told representatives of several important unions that their very existence depended upon the maintenance of the liquor traffic.

It doesn't take much to satisfy most people who are self-satisfied.

Giants Meet Yale in Three Games—
"Pirates" Will Land the Pen-
nant," Says Fred Clarke

NEW YORK, April 10.—After six weeks spring training in southern camps, the local major league teams are back in their ballparks today, and fans will have a chance this afternoon to see the Giants and Highlanders in action.

On the Polo grounds McGraw's men will meet the husky sons of Yale, while the Highlanders, sore arms and all, will meet the Jersey City league team on the latter's grounds.

The Giants will have three days more to practice before the National league season opens, while the Highlanders will journey to Washington to open the American league season in the capital on Monday.

Pirates Want Pennant.

HOT SPRINGS, Ark., April 10.—The Pittsburgh National league team took their departure from Hot Springs, their spring training place, yesterday. Eleven of the older men went direct to Pittsburgh, where they will await the opening of the regular season. Thirty of the others went to Kansas City. Before his departure Fred Clark said:

"They have my team picked all the way from first to fourth. Some kindly ones believe we will be on top at the finish. I believe with these. Wagner with all his old time hitting and fielding qualities will be with us and then the team is complete.

"My pitchers are in excellent condition and my fielders are ready for the fray. I think the 1909 National league pennant will float over a muggy Pittsburgh field."

WORDS TO FREEZE THE SOUL

"Your son has Consumption. His case is hopeless." These appalling words were spoken to Geo. E. Blevens, a leading merchant of Springfield, N. C., by two expert doctors—one a lung specialist. Then was shown the wonderful power of Dr. King's New Discovery. "After three weeks use," writes Mr. Blevens, "he was as well as ever. I would not take all the money in the world for what it did for my boy." Infalible for Coughs and Colds, its safest, surest cure of desperate Lung diseases on earth. 50c and \$1.00. O. T. Erhart guarantees satisfaction. Trial bottle free.

NELSON MAY MEET PACKEY MCFARLAND

CHICAGO, April 10.—If Battling Nelson can agree on the weight question today his match with Packey McFarland at San Francisco on July 4 for 45 rounds will be a certainty.

James W. Coffroth, coast fight promoter, got the two men to agree to everything except weight. Battling wanted McFarland to weigh 132 ring-side. McFarland wanted to make the weight four hours before the fight. Nelson would not listen to this but said he would meet the proposition half way and let Packey make the weight two hours before entering the ring. But McFarland balked on this and so the situation stands.

CUB SECONDS WILL MEET MILHAUKEE

CHICAGO, April 10.—Manager Chance's squad of Chicago National league players arrived here this morning for a pair of battles with the Milwaukee Brewers of the American association, the first of which is to be played here this afternoon. The youngsters who are being led by Del Howard, who is also playing the initial sack, will have a few of the old faces in the lineup in addition to Howard. Artie Hoffman, Schulte and Slagle will hold down the outfield positions. The pitching star will be composed of Kroh, Coakley and Hagerman, while Needham will do the catching.

If you have backache and urinary troubles you should take Foley's Kidney Remedy to strengthen and build up the kidneys so they will act properly, as a serious kidney trouble may develop. O. T. Erhart.

YOUNG SWAN ON MEDICINE DANCE

Young Swan, a wild and woolly Indian from Midway (no relation of John Swan), became so imbued with fire water yesterday that residents in the vicinity of Onalaska, where Swan was making his medicine dance, feared a possible massacre.

The Indian was arrested by Constable Van Zandbergen of Onalaska and brought before Judge Brindley this morning. As no one appeared against him he was permitted to go with a reprimand.

KETCHEL HAS EYES ON BURNS

Stanley's Manager Considering the
\$50,000 Offer for the Match
In Australia

NEW YORK, April 10.—Jack Johnson will on Monday pick his next opponent in the prize ring. The black champion has offered to meet Jim Jeffries, Stanley Ketchel, Sam Langford, Big Al Kaufman, Sandy Ferguson, or their representatives and wants to put an end to all challenges.

Johnson says he is willing to meet any of the fighters who are now clamoring for a match with him and he does not care who his opponent is.

Johnson says he could not fight before September as his engagements in London music halls will keep him occupied until some time in August, the latter part of which month he will return to America.

In the meantime Jim Coffroth, the California fight promoter, is on his way to New York from Chicago and will try and get some near champion and Johnson to sign for a fight at his club on September 9. He has hopes of getting Johnson and Jeffries to sign but if Jeffries still refuses to talk he will try and arrange a Johnson-Ketchel. Johnson-Kaufman or a Ketchel-Kaufman bout.

From Philadelphia comes the report that Willus Britt, Ketchel's manager, is considering an offer of \$50,000 for a contest between Tommy Burns, the former champion and the middle weight champion to battle in Australia.

Speaking of the offer Britt said: "If we beat Tommy Burns in Australia in less time than Johnson did he would have to meet Ketchel or drop the championship."

"Big Al" Kaufman is in fine shape for his contest with Tony Ross, the New Castle fighter, next Tuesday night and the big Californian expects to turn the trick before the tenth round.

LANSING PHYSICIAN FINED AT WAUKON

WAUKON, Iowa, April 10.—(Special.)—James E. Myers, a young physician of Lansing, formerly of Rossville, was found guilty by a jury Friday on the charge of practicing medicine without a certificate from the state board of health, and a fine will be imposed. The county association of physicians made the complaint.

Detective O'Brien of Chicago was also after the young man last week on the charge of having obtained money under false pretenses, but was unable to take him as he was in the custody of the district court of Allamakee county. The officer said that a party giving the name of James E. Myers and answering to the description of the Lansing young man, called on a Chicago midwife, claiming to belong to the board of medical examiners of that city, and after examining her as to her rights to a license, secured his fee of \$75. He had promised to send her a certificate, but when the papers failed to arrive she complained to the police and the indictment followed. The offense is punishable by imprisonment.

Gets Eight Months for Bigamy.

The Moneek couple, Daniel Schoonmaker and Nellie Moore, plead guilty at the present term of court. The couple were taken in charge at Lansing over a year ago and have been avoiding trial since. Schoonmaker was charged with bigamy and the woman with knowingly marrying the husband of another. The former's sentence was eight months in jail and a fine of \$100. He spent four months in jail after his arrest, for which he has received credit. The girl was given a sentence of two months in jail.

PLAN TRANS-CONTINENTAL

CHICAGO, April 10.—It is reported here that Edwin Hawley, backed by Paul Morton, John W. Gates and Theo P. Shonts, is about to merge the Chesapeake and Ohio, Clover Leaf, Chicago & Atton, Chicago, Cincinnati & Louisville, Iowa Central and Minneapolis & St. Louis railroads into a trunk line, Chicago officials of the various roads concerned stated today that they could not confirm the report.

The merger of these roads would furnish another line from the Atlantic seaboard to Nebraska which would have 4,892 miles of track and a capital of nearly \$400,000,000.

GOES FROM JAIL TO HIS SINNING

William Stoehr got out of jail Tuesday, called on his friend Wenzel Broezig, and is again in jail, this time for 20 days.

Stoehr was sent to jail some time ago for being drunk and making a nuisance of himself at the home of Broezig. It seems that the two friends are inseparable, and that as soon as the aged man Stoehr gets a little too much of the amber fluid into his system, he proceeds to the home of Broezig, where he creates havoc. This time the complainant was Maud Broezig, a daughter in the Broezig home. Stoehr was charged with being drunk and disorderly.

THE REFERENDUM

The law provides that certain matters of public concern shall be left to a referendum. A referendum is a vote of the people. The essential feature of the referendum is that the numerical majority shall rule, and the referendum merely establishes the wish of the numerical majority.

The question of establishing a municipal light plant in the city of La Crosse was left, by legal process, to a referendum. The verdict was in favor of the building of such a plant, the majority in favor of doing so being far in excess of the majority of the most popular city official elected.

The contention that it is "now up to the council" is so desperately dishonest as to compel a statement to correct the erroneous impression sought to be disseminated. The statement that a majority of 20 per cent is not conclusive, and that the vote by wards can be so marshalled as to indicate that the apparently affirmative vote was in fact a negative expression, is despicable. It is an insult to the intelligence of the electorate. What man, what ward, what class, man to man, has a greater voting power in La Crosse than any other man, or ward, or class of men?

There is but one thing that can justify the council in refusing to establish a municipal lighting plant. That thing is reliable evidence that the investment would be a waste of money and the plant a failure. Consideration of this possibility would be barred by the popular verdict were it not for the fact that no information of a reliable nature, pro or con, was given to the voters prior to the referendum. ABSOLUTELY RELIABLE INFORMATION MUST BE SECURED BY THE COUNCIL, and only upon an irrefutable showing that the plant would not pay can the council be justified in ignoring the result of the referendum. In every other respect that referendum is as binding and conclusive as is any edict of the people in a "government by the people."

The Tribune took no positive stand in relation to the matter during the recent campaign. The reason for this

was that THE TRIBUNE WAS NOT SURE OF ITS GROUND. It is not sure now, but it IS sure that the only ground advanced by the organs of the light company for ignoring the primary is absolutely incompetent.

The allegation that the company now selling light to the city has investments that the public must protect is not convincing. The circular of that company promising to give the public service to which it is entitled in consideration for the public giving the company emoluments to which it may not be entitled is equally repellant to the public. The one proposition which the people must consider in relation to this lighting plant subject is, WILL IT PAY?

WILL IT PAY? The Tribune does not assume to say. It is open to conviction, either way. But it is to this one question that the COUNCIL MUST ADDRESS ITSELF. And so long as the Gelatt papers continue to misrepresent the situation, so long will the public incline to the belief that they made no mistake when they voted for a municipal lighting plant.

A CITY'S BUSINESS

The affairs of the mayoralty are multifarious. The activities of the mayor must be many and energetic, if the exacting demands of office are properly answered.

Last night the mayor-elect, Ori J. Sorensen, sat beside Mayor Anderson and watched the council in harness. It worked well. There were a lot of matters that were attended to, but it was all over somewhere around 9 o'clock. Resolutions, communications, the usual grind of city matters, came up as though automatically, were read with swiftness and referred with dispatch to the right committee. No doubt it looked to the mayor-elect as though the story of a council meeting, so far as the mayor is concerned, could be told in the song:

"He walked right in and he turned around and he walked right out again."

The deliberations of a well regulated council can be made to move like "greased lightning," but the mayor must furnish the grease. Take a lot of the little things that come up, things that must be done for the city's good. These, to get on with work, must be sent through without delay or misunderstanding. Last night, as R. Kipling said of the morning batch in a London police court, they were "worked off three a minute." And here are some of the things that were done in that short hour:

Communication from mayor providing that defective bonds of city officials be perfected, read and referred.

Resolution to provide police with motorcycle and speedometer for the pursuit of auto scorchers, read and referred.

Communication suggesting vital necessity of an ordinance giving fire department vehicles the right of way in the streets, read and referred.

At least two of these things are of real importance. It is to catch them that the watchful eye of the mayor is essential. It is simply business, and requires the same discerning care and the same constant application as does a big private business. Mayor-elect Sorensen has attended faithfully to his private business and made it a success. He seems dead in earnest about doing as well with the city's business.

Stephenson men in La Crosse county have been charging W. H. Hatton with a "stupendous expenditure of money," or words to that effect. He spent \$25, while Stephenson spent \$2,300. Hatton spent his for printing and postage. Stephenson spent his for—well, nobody but Mr. Gordon knows. Perhaps he spent it for nothing; at least, he got nothing for it unless defeat counts for something. But he aimed to spend it for something he regards as a purchasable commodity—votes. One seldom buys votes at so much per, by specific contract, but one who is well advised knows there are ways and ways of buying votes.

The governor still insists that that fellow Stone imposed upon him by giving him money. For shame, Mr. Stone, you should have been spanked on the wrist.

Now Standard Oil becomes another advocate of the simplified spelling. It wants to spell "Payne" thus: "pain."

"Brown's an ingenious fellow."

IN THE NATION'S CAPITOL

(By John J. Hannan.)

WASHINGTON, D. C., April 10.—To Wisconsin is due the credit for the only notable break in the tariff program of the ways and means committee and the securing of the only notable reduction in any of the schedules of the Payne bill which came to a vote and was a matter of controversy.

While Representative Norris of Nebraska offered the amendment which carried, reducing the duty on crude petroleum and its products to 1 per cent ad valorem, it was the shrewdness of Representative Cooper and Lenroot that paved the way for successfully bringing the Norris amendment before the house for a vote.

When the committee amendment to reduce the duty on petroleum to 25 per cent was offered, Chairman Olmstead of the committee of the whole, recognized Representative Vreeland who offered an amendment to that schedule. The chairman permitted Mr. Vreeland to discuss his amendment at length and when his discussion was finished Representative Norris proposed the amendment making the duty 1 per cent ad valorem. Representative Payne was immediately on his feet with a point of order.

There is no doubt but this would have been sustained. However, during the discussion, Representative Lenroot slipped from his seat down alongside of Representative Cooper. They held a conference and decided that the chair, having permitted the introduction of the Vreeland amendment and the discussion of it that this action amounted to a unanimous consent agreement on the part of the house to amend the rule under which they were working for the consideration of the petroleum schedule. Representative Cooper made this point in his discussion. He presented it so forcibly and so clearly to the house that there was no mistaking the matter.

The chair ruled that the point of order was not well taken, but upon appeal from the chair, the house overruled the chair because of the clearness with which Mr. Cooper put the question before it.

It was a great victory for the insurgents. It so riled the speaker that poor old "Uncle Joe" frothing at the mouth took the floor and but illy concealed the anger which possessed him and which was directed at the representative from the First district of Wisconsin.

Mr. Cooper made a strong speech in support of the Norris amendment which would never have been acted upon by the house but for the wide awake Wisconsin man. The Norris amendment was carried by such an overwhelming vote that "Uncle Joe" and his friends did not have the heart to ask for tellers. It was really carried at about 5 to 1.

The insurgents are certainly taking a lot of satisfaction out of their victory and well they may as that little point of order from Mr. Cooper made it possible for them to bang in their belts the seals of Mr. Payne and his committee, Mr. Delzell and the committee on rules, "Uncle Joe" and all his frate companions who are friendly to Standard Oil.

Many a man is willing to sell his experience for less than he paid for it.

QUIPS AND CRANKS AND WANTON WILES

Nothin' Doin'.

There's very little doin' In the workin' line when spring Comes a-driftin' through the winder With a smell of everything That's a-sproutin' in the garden, An' a feller feels his feet Sort of liftin', like a band was Makin' music in the street.

There is very little doin' When the fish are bitin' good, And some fourteen kinds of green is Scattered all across th' wood, And the butterflies are driftin' Lazily along the breeze, And you hear the fieldlarks' callin' An' the buzzin' of the bees.

There ain't nothin' much a-doin' When your thoughts drift out along Country roads and sleepy bayous Like the liftin' of a song; Into all the nooks and corners Where spring blossoms bud an' blow, And you hear the birds a-singin' Where they sang a year ago.

There ain't nothin' much worth doin' But to take the kids an' run Hand in hand across the prairie, Curly a-dancin' in the sun; Or to go a-racin' chasin' 'Neath the heavens broad an' blue; Duty's voice trails off to nothin' When the spring's a-callin' you. —Houston Post.

A Slight Misunderstanding.

A lady from South America, possessed of a decidedly quick temper, came to New York with a very incomplete knowledge of the English language. At her hotel she rang for the chambermaid. But a waiter came instead. Having ascertained that the name of the chambermaid was Susan, the lady marshaled her meager knowledge of English in a desperate effort to make the waiter understand that he should call the chambermaid. What she said to him, however, was:

"Call me Susan!"

The waiter leaned against the wall much alarmed.

"Call me Susan!" shouted the South American.

The waiter became appalled.

"Call me Susan!" roared the lady, her eyes flashing furiously.

"Susan, then—if you will have it!" exclaimed the poor waiter. Then he fled precipitately.—Sew York Times.

Small Scale Love.

Dr. Pierce Underhill, whose book on divorce and marriage is to appear next month in Indianapolis, delivered a lecture recently in a fashionable Indianapolis church.

"Extravagance," he began, "is one of the big causes of divorce. My cousin, a bank teller, married a pretty girl and took her home to a nice little flat. But she frowned and bit her lip.

"Oh, Jack," she said, 'I can't live in a tiny flat like this!'

"You don't love me when you say that, darling," said my cousin.

"Oh, yes, I do," said she, 'but not on such a small scale.'—Seattle Post-Intelligencer.

Do Your Own Shoveling

Gen. J. W. F. Hughes of the Kansas National guard takes six spoons of granulated white sugar to every cup of coffee. The only reason he assigns for this extraordinary stunt is that he likes "his coffee sweet."

He runs up against some odd experiences over this notion. Some time ago he was in the south on a railroad diner, and the waiter came around and said: "How many lumps of sugar, sir?"

"About half a dozen," replied Hughes.

"We only give four to one cup of coffee," replied the waiter.

"Well, then, bring me another cup of coffee, so that I can have the sugar belonging to it."

Another time when the general was traveling he jumped off a train and was in a hurry to swallow down his lunch so as to make connection with another train. The dining room girl at the railway eating house who waited on him, after she had served his meal took up the sugar bowl. It contained granulated sugar.

"How many spoonfuls in your coffee, please?" she asked sweetly.

"Six or seven," answered the general quickly.

She slammed down the sugar bowl and snorted: "Shovel the d— stuff in yourself!" and switched out of the dining room.—Kansas City Journal.

Nearly a Hero

The passengers on the Pullman car took in the situation at a glance and did exactly what the train robber told them to.

At the points of his guns he relieved them of their valuables. But at the sight of one woman he paused with a start.

"Who are you, woman?" he demanded.

"I," she quavered, "am Miss Fay Fluffe, the well-known actress. Here are my jewels—take them all!"

The holdup man held up his head proudly.

"No," he replied, "I may be a robber, but I am no press agent. Keep your wealth!"—Cleveland Plain Dealer.

The Way It Appeared to Her

When she was 5 years old her aunt took her to church; it was her first experience.

When she got home her mother asked her how she liked the service.

"Oh, well, God was there in a white nightgown, and he didn't speak loud enough for the people to hear what he said; so they kept saying over and over: 'We bewitch Thee to let us hear Thee, good Lord! I didn't like it very much.'—Judge's Library.

Love The Criminal

By J. B. Harris-Buriald.

COPYRIGHTED 1908

And, before he could make up his mind what course to take, the door opened, and Laura herself entered with an apologetic smile on her face.

"I am so sorry," she said, crossing to Mrs. Bonsal's side. "But I've had an awful time downstairs with Monsieur Taque. I daresay, however, you two have not missed me; you have had a long talk over old times. Eh? Well, I think we'll have tea now."

And from that moment the whole scene outwardly passed from tragedy to the commonplace. A stranger would have seen nothing but the ordinary spectacle of a man and two women discussing trifles over their tea-cups. Yet Mrs. Bonsal's whole mind was on the alert to discover whether Laura loved her husband. Laura was trying to find out whether the actress still loved Tankerlane, and Tankerlane himself felt like a criminal before his judge.

Yet they all three chatted together as though there were no more serious troubles in life than dress-makers' bills, and when they parted, an hour later, the two women kissed each other on the cheek.

William Tankerlane was anxious to leave Paris as soon as possible, but his wife, by an irony of fate, was taken ill with influenza the day after the tea party, and it was impossible to move her from the hotel.

CHAPTER X

The Knot and the Sword

During her illness Laura conceived a strange and over-powering desire for the company of Mrs. Bonsal, and all Tankerlane's efforts to keep the two women apart were doomed to failure. The doctor said that Mrs. Tankerlane must be humored, and so it came to pass that Mrs. Bonsal was a frequent visitor at the Hotel Imperial, and almost took upon herself the duties of a nurse.

Strange though it may seem to one unversed in the ways of women, these two, who by all laws of nature should have been deadly enemies, had formed a friendship, in which self-interest and a desire to pry into each other's affairs found no part. They had conceived a genuine liking for each other.

The actress, who alone knew the truth, was not at all jealous of the woman who had assumed her lawful place. She had cut out Tankerlane from her life as completely as though he had never existed. All her thoughts were for the woman who believed herself to be Tankerlane's help Laura, and, though she could not decide whether to tell her the truth or keep silence, her decision would only be influenced by the most unselfish motives.

Laura, on the other hand, who knew nothing of the truth, and who merely suspected that at some time or other William Tankerlane had been in love with Mrs. Bonsal, found this suspicion no obstacle to friendship. She did not love the man she believed to be her husband, and his past amours were nothing to her. The situation was much simplified by the fact that neither of the women had the slightest consideration for Mr. Tankerlane.

It was not long before Mrs. Bonsal found out what she wished to know. Perhaps Laura, in her weak knowledge of health, was less able to disguise her emotions, and to pretend an affection that she did not feel. Perhaps, on the other hand, she took no pains to hide the truth from the kindly woman who attended her so thoughtfully to all her wants and comforts. But, in any case, Mrs. Bonsal learnt the truth, and realized that Mrs. Tankerlane was not in love with her husband, and that his presence was even repugnant to her.

This discovery gave Mrs. Bonsal much food for reflection. Such a position would have been quite in the ordinary course of events if the young couple had been married for any length of time. But they were still on their honeymoon. It was

probable, therefore, that Laura had married a man she had never loved, and was never likely to love. Why did she marry him? That was the question which presented itself to Mrs. Bonsal's mind, and it was a question to which she could find no answer.

One thing, however, she intended to discover, and that was, whether Laura desired her freedom, and, if not, whether she would rather have her marriage legalized before a child was born. It was a difficult, almost an impossible matter to approach, and Mrs. Bonsal thought long and carefully before she decided on the most delicate method of ascertaining Laura's wishes.

She finally decided to adopt a ruse, which is at least as old as the days of David, and which has never yet been surpassed for arriving at a personal opinion through the medium of an impersonal problem.

"Mrs. Bonsal waited till the day before Mrs. Tankerlane was going to leave Paris.

"You are really leaving tomorrow," she said, as they sat alone in the sitting-room at the Hotel Imperial.

"Yes," answered Laura faintly, "we are leaving. My husband absolutely refuses to stay another day in Paris. The doctor says I can travel if the necessary precautions are taken."

"I shall be sorry to lose you, dear," said Mrs. Bonsal, "very, very sorry," and she laid her hand on the invalid's thin white fingers.

"I am very sorry to go," replied Laura. "Do you know, Leonore, I can't help thinking that my husband dislikes you, and that he is leaving Paris to get away from you. He announced his intention of going on the day after we first met you."

"I know that your husband dislikes me," Mrs. Bonsal replied, "and if we are to be friends, I should like to tell you the reason why he dislikes me. It is a sordid story, but I think it is right that you should know."

"I should like to know," murmured Laura faintly. "I am sure that, whatever you did, you would always try to act for the best."

Mrs. Bonsal leant over and kissed her.

"Many years ago," Mrs. Bonsal began, "your husband was a great friend of Mr. Bonsal's. He did not know me at that time, for I had been separated from Mr. Bonsal for some years. We had never been divorced, as there was no cause for divorce on either side. We had merely agreed to part.

"Then it so happened that Mr. Bonsal fell passionately in love with a girl, and, as I subsequently found out, persuaded the girl to marry him, though she did not love him.

"Fate brought me once more on the scene, and I found Mr. Bonsal, under another name, apparently married to this girl. The girl knew nothing of the truth, and believed that she was the man's wife.

"Two courses were now open to me: I could keep silence or I could proclaim the truth. I had no thought of myself in the matter. I did not even consider Mr. Bonsal. I only wished to do that which was best for the girl."

"And what did you do?" Laura asked eagerly.

"I told the truth. I argued that, if the girl did not love him, she would perhaps be glad of an escape from bondage, and that, whether she loved him or not, it would be better for her to know the truth. I intended, if she wished it, to divorce him, so that he could be legally married to her."

"You did right," cried Laura fiercely. "You did right. And what happened then?"

"I believe," continued Mrs. Bonsal, as though she had not heard the question, "that I did right—am sure that I did right. But it was a cruel blow to strike."

"And what happened then?" Laura repeated, with her eyes fixed on Mrs. Bonsal's face.

"The actress did not answer. Her story had come to an end. The rest lay in the future. Her fertile brain could easily have invented a conclusion to the tale, but she wished to arouse Laura's suspicions of the truth, and, in order to do this, she kept silence.

"Surely that is not the end of the story," continued Laura, with dogged persistence. "Did the girl love the man or not? Did the result justify your action?"

"The girl did not love the man," Mrs. Bonsal replied with downcast

eyes, and an intentional hesitation in her voice.

"What did you do?" asked Laura. She had as yet no suspicion of the truth.

The situation was becoming unbearable.

Mrs. Bonsal's heart beat very fast. She had resolved to tell everything, but she had no wish to do it in so many words. She wanted Laura to guess the truth. She was again silent, and twined her fingers together nervously. She desired to let her actions speak for her. It seemed impossible that any one could fail to misinterpret her confusion.

IMPORTANT COURT DECISIONS

VALIDITY OF STATUTE. The Ohio statute provides for the enforcement of a right of action for the death of a citizen of that state for which a right to maintain an action is given by statute in another state. Mrs. Chambers, a citizen of Pennsylvania, sued in an Ohio court to recover for the death in the former state of her husband, also a citizen of Pennsylvania. Plaintiff contended that if the statute were so construed as to embrace only citizens of Ohio, it would be invalid as denying equal privileges and immunities to citizens of other states. The United States supreme court held in Chambers vs. Baltimore & O. R. Co., 28 supreme court Reporter, 34, that, as the restriction as to citizenship related to deceased and not the parties suing, there was no violation of the constitution, and that the law was valid.

Effective Stimulant

In a recent letter A. J. Park, A. M., M. D., of 520 E. 50th st., Chicago, Ill., wrote: "I am too busy to write my opinion, experience and results of the ministration of Duffy's Pure Malt Whiskey to weak, feeble and debilitated patients, but I will repeat emphatically and pointedly, my confidence in the purity and remedial excellence of your Malt Whiskey. It is a first-class and most effective stimulant, and meets every indication where a stimulant is needed."

Prescribes It

K. M. Teigan, Ph. D., M. D., of 1120 26th Ave. N., Minneapolis, Minn., wrote in a recent letter: "During the last nineteen years I have frequently, when alcoholic stimulants have been indicated, prescribed Duffy's Pure Malt Whiskey for my patients because it agrees with them better than any other. Without solicitation from you, or any of your representatives, permit me to say that I consider Duffy's Pure Malt Whiskey the purest and very best synthetic product on the market."

"I have received the sample of Malt Whiskey and believe it to be the only pure whiskey I have sampled for many years. I have been a victim of indigestion for 20 years, and find that I have received more benefit from Duffy's Pure Malt Whiskey than all the other medicine I have ever taken. I have taken a teaspoonful after each meal, for eighteen days, and I can scarcely find language to express the relief I have found while I have been taking it." D. Bodfield, M. ENGINEER'S WIFE ROUTS BURGLAR

Upon investigating a noise which she heard in the early hours of the morning, Mrs. C. L. Larsen, 1541 Wood street, wife of the well known Burlington engineer, came face to face with a burglar Thursday night but by her presence of mind prevented him from securing any booty.

Upon first hearing the noise Mrs. Larsen thought that it was her husband returning from his run but when she heard a strange voice upon speaking to the intruder, her suspicions were immediately aroused. In the darkness of the room she made a rush for the burglar, who dragged her as far as the front door and made his escape. Mrs. Larsen could get no description of the man because of the darkness and is unable to give an opinion as to whether it was a tramp or some other species of midnight prowler.

Fortunate is the man whose final sickness doesn't last longer than two weeks; at the end of that time, neighborhood interest in him begins to wane, unless he dies, when it becomes all-absorbing.

TONS OF DECAYING FISH DANGEROUS

DISEASE BREEDER BETWEEN NORTH AND SOUTH SIDES

WARNING IS SOUNDED NOW

Citizens Say Drop in Stage of Water Will Deposit Dead Fish on Land to Rot and Breed Disease

Tons of dead fish, caught in the slough between the North and South sides last fall, frozen during the winter in the ice which froze to the ground, are now floating in the water between the North and South sides of the city and according to citizens endanger the health of La Crosse residents.

In some places along the causeway these fish are to be seen in schools of hundreds. They range from small fry to dog fish and carp weighing up to 10 and 15 pounds. While the weather thus far has not been warm enough to cause a stench, it is pointed out that as soon as the weather gets warm and the water drops, leaving the bodies of the fish upon land, there will arise a stench which will be dangerous to health of citizens. It is also pointed out that during the summer and fall mosquitoes will feed upon the decaying bodies of the fish, and flying about the city and stinging human beings, will be very apt to spread malaria and typhoid.

Citizens who have noticed the condition say that the city health department should take cognizance of the state of affairs and send men in to the slough with skiffs and dip nets and remove the menace while there is yet time.

His mother was alarmed by the cry of the boy and as he complained of a pain in his arm, Dr. Luck was called in and found that the arm had been broken. The member was attended to and the boy is resting easily today.

Pleased With Action of Council Last Night in Granting Use of the North Side Streets

At the meeting of the common council last night the request of the north side merchants to use the streets for the coming carnival, was granted. The Kline Amusement company, which has been in the city before and has showed successfully, has signed a contract to bring their shows here for the week beginning June 7. Much interest is being shown and the merchants have been liberal in their donations to the carnival guarantee fund. The past amusement companies which have brought their attractions to the north side have always been successful financially. This sort of an attraction always advertises the city and draws considerable trade to the part of the city where the carnival is being held. The only drawback is that the streets which are used are temporarily blocked but the advantages outweigh the disadvantages. The carnival will undoubtedly be held on Milj and Rose streets as in the past.

"Before I began taking Dr. Miles' Heart Remedy I had been suffering from heart trouble for over five years. I had pains in my left side, and under my shoulder blade, could not sleep on the left side, and was so short of breath the least exertion would bring on the most distressing palpitation. I had scarcely taken a half bottle of the Heart Remedy before I could see a marked change in my condition. When I had taken six bottles I was cured."

If there is fluttering or palpitation it is an indication of a weakness of the nerves and muscles of the heart. It is not necessarily diseased—just weak from over-work. The heart may be weak just the same as the eyes, stomach or other organs. You can make a weak heart strong by taking Dr. Miles' Heart Remedy. Get a bottle from your druggist, take it according to directions, and if it does not benefit he will return your money.

NEW MAYOR GETS ONTO THE ROPES

SORENSEN PRESENT AT MEETING OF COUNCIL

RAILWAY TO REPLACE BRICKS

Council Takes Action for Restoration of Streets—Other Matters Decided Last Evening

With Mayor-elect Sorensen at the left of his chair and a number of eager aldermen-elect seated in the rear of the room anxious to hear every word so as to get a line on their new duties, Mayor Anderson rapped the gavel which called to order the last regular meeting of the present council.

Nothing out of the ordinary was brought up during the session, unless it was a resolution asking for a three and one-half horse power motorcycle with cyclometer for the police department to secure evidence in apprehending violators of the speed ordinance. The cost of the motorcycle will not exceed \$200. The matter was referred to the police and fire committee.

Change in City's Bonds.
Mayor Anderson offered a resolution changing the surety bonds furnished the city officials at the city's expense. The ordinance requiring the said bonds was passed in April, 1905, and the bonds were secured from the Title Guaranty and Trust company for \$340. In 1907 the Empire Surety company was awarded the bonds at a cost of \$327.95 a year. In looking over the bonds the mayor discovered that the city is paying for bonds that are not protection, and he asked that all bonds adopted by the council shall read like the first bonds did.

Assist Fire Department.
Another communication from the mayor asked that the city attorney draw up an ordinance giving the apparatus of the fire department right of way upon all streets and which will require all vehicles to turn aside and stop when the gong is sounded. This ordinance is to prevent automobiles from speeding alongside of the fire department's apparatus, which is very dangerous.

Raps City Railway.
A resolution was passed requiring the City Railway company to replace all bricks that were taken up by the city for the purchase of so that the bricks resume their former position. At present it is alleged that the bricks are put back in a careless manner and the resolution provides that they be replaced in a manner satisfactory to the city engineer and the board of public works by June 1.

Henry Gund was reappointed by the mayor as a commissioner on the park board for a term of four years.

Minor Matters.
The council went on record as against the public utility bill now before the legislature giving the public utility corporations indeterminate franchises.

A resolution providing for the employment of three garbage wagons by the board of public works for a period of six months beginning May 1, was adopted. Two of these wagons will be used on the South side and the other on the North side.

The Chicago, Burlington & Quincy Railway company was granted the right to build a spur track to the Can company's plant.

The North Side Amusement association was granted the right to hold a carnival for a week following June 7.

Alderman Vollmar offered a resolution recommending the Dunn coupon ballot system, but the resolution was voted down.

A resolution was offered by Alderman Goddard asking the city to appropriate \$500 for the purchase of crushed rock to be used on the State road providing that the county appropriate a like amount for the work.

A communication from the board of public works calls for the repair of King street from Fifth to West avenue and that it be covered with an asphalt binder, at a cost of \$2.00 1/2 per running foot. The matter was referred to the committee on streets and alleys.

A resolution was offered by the mayor providing for the payment of \$50 to Jake Padesky as a recognition of services rendered the mayor during the last two years of his administration.

HANDS CRACKED RAW AND SCALY

Itched and Burned Terribly—Arms Affected, Too—Could Not Move Thumbs Without Flesh Cracking—Sleep and Work Often Impossible—Was Fairly Worn Out.

CUTICURA SOON CURED HIS FEARFUL ECZEMA

"About a year ago an itching humor began to appear around the back of my hand. It started in to spread, and pretty soon it covered both my hands and got up over my wrists and even up to the elbows. The itching and burning were terrible. My hands got all scaly and when I scratched, as I was doing a good part of the time, the surface would be covered with blisters and the itching would get even worse. I could not move the thumbs without deep cracks appearing. I went to my doctor, but his medicine could only stop the itching and did not seem to heal my hands up at all. At night I suffered so fearfully that I could not sleep, often lying awake until well toward morning, then waking up still tired. I am a chef and sewer and had to have to give up my place, as my hands were so terrible to look at that they did not like to have me around about the food. I could not bear to touch them with water, but when I positively had to get my hands clean I would rub them with oil.

"This sort of business went on for three months and I kept trying zinc and tar ointments and such remedies with no particular benefit. I did not know what to do, for I was fairly worn out. For a long time several friends kept asking me why I didn't use Cuticura and at last I thought I would. First I got the Cuticura Soap, then Cuticura Ointment and at last Cuticura Resolvent. I put the Cuticura Ointment on at night, covering my hands with light cotton gloves. In the morning the inside of the gloves would be lined with scales, sometimes half as long as your finger, leaving nice healed places where the scales had been. In a month I was cured and have kept now for nine months. My hands and arms are perfectly clear of all traces of eczema and I think I am well rid of it. Walter H. Cox, 18 Somerset St., Boston, Mass. Sept. 25, 1908."

AIRY FAIRY DUGAN MOUNTED

Mayor's Resolution Suggests Picture Of Sylphine Officer in Hot Pursuit

"Resolved, That the Board of Public Works and the Chief of Police be and are hereby authorized and empowered to purchase a three and a half horse-power Motorcycle, with speedometer, for the use of the police department, at a cost not exceeding two hundred dollars."

This innocent looking little resolution introduced in the city council last night, is "loaded." It is a bomb for the auto scorchers. It sounds a terrible warning to the Red Devils and the Green Dragons.

When you chauffeur who knows no speed limit says his prayer to Fortuna and "turns her wide open," there will split the ether at his back a mailed and mounted visitation. Turning his glass upon the daring, pounding speck in a cloud of nebulous matter, he will see the airy form of Larry Dugan rampant astride a bucking devil of a motorcycle. Then will the "chug! chug!" of the auto stammer and the gasoline smell turn pale. And in that despairing breath will the doughty Larry range along side, while the Sleuthsome speedometer will make its telltale record.

"Woe's me, I am undone!" Also "Woe worth the chase, woe worth the day." Also, alas and alack. Also a line of language to make Pluto prick up his ears and emit a fiery guffaw.

While all this is coming to pass the sylphine Larry has vanished into the ethereal distance from which there comes back to the trembling owner of that abashed auto only a protesting reverberation which is taken up by wireless stations which immediately transmit to Pike's Peak and Gibraltar the news that a complaint has been drawn and a summons issued in the case of The City of La Crosse vs. Blank.

It is a serious matter. That the mayor wants it so understood is made plain in the following communication with which the resolution was accompanied:

The Mayor's View.

"La Crosse, April 8th, 1909.
To the Members of the Common Council of the City of La Crosse: 'Gentlemen: 'During the season of 1908 the local Automobile association made an earnest appeal to its members, and all other owners of autos, to observe

ministration. The resolution was referred to the committee on finance. The mayor then appointed a committee of three, namely: Aldermen Bedesem, Houska and Goddard to canvass the ballots of the last election Monday afternoon, and report to the council, which was adjourned until Monday evening.

TARIFF BILL GOES THROUGH HOUSE AND UP TO SENATE

(Continued from page 1.)

house bill is a failure, so far as its capacity to produce sufficient revenues to meet the needs of the government is concerned. It will remain for the senate not only to meet this necessity but to so change many of the schedules as to meet the popular

WOMEN AFTER SENATE

WASHINGTON, D. C., April 10.—Their hope of influencing the house of representatives gone by the passing of the Payne bill last night the delegation of Chicago women here to protest against the high duties on women's gloves and stockings are today preparing to lay siege to the senate.

On the way to the house yesterday they met Seno E. Payne, Representative from Illinois, introduced Mrs. E. M. Henderson to the father of the tariff bill.

"So sorry, you know so little about the tariff," said Payne, "for you are protesting against something that is really all right."

"We are so sorry that you know so little about the tariff, yourself," snapped back Mrs. Henderson and walked away, full of wrath, while Payne sidled away with shaking sides.

demand and at the same time prevent alleged positive injury to certain industries.

Good and Bad Mixed
In the tariff bill as adopted by the house tonight hides are free, sawed lumber remains at \$1 per thousand feet, which is half the Dingley rate.

WHAT DID BILL SAY?

WASHINGTON, D. C., April 10.—Speaker Cannon and Representative Payne, chairman of the house committee on ways and means, were early callers at the White house today.

The speaker was not overenthusiastic when he left the president's office, and when he was asked if the president had congratulated him, he said:

"Oh, I guess, like all other republicans, he is gratified that the bill has got as far as it has. I think we got through in good time."

tea is free, coffee is free, oil is free, and the countervailing duties on oil, lumber and coffee, which were evident avenues of fraud on the people, have been removed.

The advances made, to the surprise of the people, on hosiery and gloves, unfortunately remain. The rates now in operation on cotton,

the laws and ordinances with respect of speeding on the streets, observing the rules of the road and recognizing the rights of pedestrians.

"Notwithstanding this and their co-operation with the authorities, there were almost daily complaints of the dangers incident to the fast driving of such machines in various parts of the city.

Lives in Danger.

"With all the attention which could be given to this dangerous practice on the part of our police officials, in addition to their other duties, it was within their power to secure evidence sufficiently strong to justify a fine in only half a dozen cases. This was due mainly to the lack of suitable means for definitely fixing the speed, as distinct from mere opinion of the same. As it must have become apparent to all that it is a mere question of time when the reckless speeding will result in fatal accidents, unless measures are adopted to prevent it, I beg to suggest the consideration of the advisability of providing the police department with a motorcycle having a speedometer attachment, and to this end request that the following resolution may be referred to the committees on finance and streets and alleys.

woolen and silk goods of the kind women buy in dry goods stores are unchanged, and the present high prices will be maintained so far as the house of representatives is concerned.

There was no vote in regard to hosiery and gloves, the leaders of the house having been afraid to trust their colleagues to go on record. The protest of the Chicago women was ignored absolutely; furthermore, their petition was turned down by the objection of a Chicago member—James R. Mann, representing the Hyde Park district, where a good many clubwomen live.

Senate About Ready.

The senate committee has been working on this subject ever since the bill was introduced in the house, and Chairman Aldrich is confident that it will be in shape for presentation in the senate on next Monday. A great many interests who were not satisfied with the provisions of the house bill have had an opportunity to present their grievances to the senators and even the "ultimate consumer" has been given some perfunctory attention, as is shown by the announcement that the protest of the women of the country against increased taxes on gloves and hosiery has been heeded and that the senate bill will probably leave the rates on these articles as they are in the existing Dingley bill.

Meeting on Monday.

There will be a special meeting of the full senate committee on finance Monday. At this democratic members will have their first sight of the measure prepared by their republican colleagues. The latter during the past week have been holding three sessions daily, making their final decisions as to the rates to be written into the bill.

An important decision reached late last night was to accept the provision which will allow 300,000 tons of Philippine sugar to come in free. This has been strenuously objected to by a number of the beet sugar producers of the west and it will not be passed without a contest.

Put Coal Tax Back.

The reciprocity clause on bituminous coal by which it was expected that Canadian coal would be admitted free is to be stricken out of the bill and Canadian coal is to remain taxed. The probability is that the tariff on coal will be fixed at 50 cents per ton instead of 67 cents, which is the existing rate. An effort is being made to have ulm, slack coal, taxed at about 30 cents per ton instead of only 15 cents as at present.

Help the Steel Trust.

Steel rails are to be taxed at about \$5 per ton.

The present rate is \$7.84 and the Payne bill cut this just in half, which the manufacturers say is too great a reduction. It is practically settled that iron ore is to be taxed 20 cents instead of being admitted free as proposed in the Payne bill.

This will necessitate a general alteration throughout the metal schedules so as to make them symmetrical.

Move Revision Upward.

Structural steel, it is said, will be left at its present rate of one-half cent a pound instead of being reduced to 3-10 of a cent as proposed by the house.

Hides will be taken from the free list of the Payne bill and taxed either ten or fifteen cents.

Lumber will be left just about as the house passed it.

Wool and wool ton will, it is reported, be restored to the existing Dingley rates.

Art to Be Free.

Art, whether ancient or modern, is to be put on the free list. In the Payne bill no art production created within the last twenty years could come in free. The senate committee has decided that there should be no restrictions and paintings and statuary may hereafter be admitted without the payment of duty, if the senate provision finally becomes a law.

FUNERAL OF MRS. MATHISEN SUNDAY

The funeral of Mrs. Ole Mathisen and child, who expired within a few moments of each other at the La Crosse hospital early yesterday morning will be held from the house, 716 St. Paul street, tomorrow afternoon at 2 o'clock. STEAMER WANDERER SINKS OFF FLORIDA

A letter received from Florida tells of the sinking of the steamer Wanderer, a craft well known in these waters. The Wanderer was employed in building the Flagler's ocean railroad from Miami to Key West. This boat will be remembered as once having been used by Mr. Lamb of Clinton, Iowa. She was a fine craft and was fitted up with great expense to cruise up and down the Mississippi river with Mr. Lamb and his friends. She was sold with some seven or eight other boats to Mr. Flagler and was taken to the Florida keys

to be used in constructing that wonderful piece of work. It seems too bad that this boat after making the perilous journey from New Orleans to her new home should meet such a fate.

VOTE ILLEGAL IS REPUBLICAN CLAIM

CONTENT LEE SING IS NOT A CITIZEN OF U. S.

CHINAMAN CAN NOT QUALIFY

Ohio Judge Issued First Papers, but They are Illegal, Say Lawyers Here This Morning

Republican lawyers interested in the late municipal campaign today announced that Lee Sing, proprietor of the Chop-Suey restaurant on South Third street, voted illegally at the election. They allege that he was taken to the polls by the democratic ward workers in the Second ward, and after proving a sufficient residence in the ward, was permitted by the inspectors and clerks to cast his ballot which, they say, was, of course, for the democratic candidates who got him out.

The attorney who questions the voting of Lee Sing says that the U. S. department has made a ruling quite recently declaring that Chinamen cannot become citizens of the United States under any circumstances, owing to the absence of a citizenship treaty with the Flowery Kingdom. Lee Sing secured first citizen papers in an Ohio court, it is stated, but as there was no law allowing this, these papers are said to be illegal.

WE MAY KNOW IF WE'RE SAVED

"Try your own selves, whether ye are in the faith." (2 Cor. 13:5), was the text used by Rev. A. Lincoln Shute last night at the First Methodist Episcopal church in preaching on "Man's part in the answer to the question, How may I know that I am saved?" The following shows the line of his thought:

There is no use to try ourselves, if we cannot know. But the text implies that we may know. The doctrine of assurance is a most comforting one. There are two witnesses to let us know when we are saved—the Holy Spirit and our own spirit. In trying ourselves we compare the facts of Scripture with the facts of experience. The Holy Spirit has recorded in the Bible the characteristics of a Christian. When we are saved, he stamps these upon our hearts. We compare the two, and if they agree, we have the right to conclude that we are saved.

According to the revealed word of God's people because at peace with

God, he loves God, he loves God's people because they are God's people, he loves everybody, even his enemies, he makes it the supreme business of his life to obey God, and to this end he loves and studies the Bible so that he may know his heavenly Father's will, he is led by the Spirit of God, because only as many as are led by the Spirit of God are the sons of God, he develops the fruits of the Spirit—love, joy, peace, long suffering, kindness, goodness, faithfulness, meekness, self control, and he loves the Church of God, which Christ loves and of which Christ is the head.

The witnesses are trustworthy. The Holy Spirit knows the facts to which he testifies, and we know the facts of our own experience; and we may know the teachings of the Bible. The two witnesses guard and confirm each other. We should give honest attention to our own hearts and to the word of God, so that we may know this most important item of human knowledge, our personal relation to God and his Son, our Lord and Savior Jesus Christ. Any man in La Crosse may know inside of 24 hours whether the Bible is true, whether Jesus has power on earth to forgive sins, and whether he himself is saved—indeed that he is saved, if he is willing to comply with God's challenge.

INITIATE STUDENTS INTO ALPHA OMEGA

People who happened to be on Main street yesterday noon were astonished to see two mysterious soldiers marching in single file up and down the principal thoroughfares of the city. At every corner the "soldiers" would stop and one of them would make the atmosphere resound with a melodious bugle call. They were followed from one end of the street to the other by a curious and admiring crowd of young boys who gazed awe struck at the resplendent khaki uniforms complete with all the bright trappings and regalia of regulars on dress parade. Closer inspection revealed that they were two very prominent young high school men who were bravely struggling through their initiation which would make them members of the Alpha Omega fraternity. The principal stunt was the military parade up and down the business section of Main street during the noon hour. In the evening they were blindfolded and led

Who Pays the Rent

Did it ever occur to you that billions and billions of dollars are added to the cost of goods purchased at retail by the public, simply for the purpose of making a big show. Who pays the rent, the answer is easy. **Consumer.**

You perhaps remember that the New Piano Store was put through the sweat box recently, that is they were put through their first degree of the mysterious business principals, which follows jealousy, the result of complaints by local merchants, the state of Wisconsin investigated and found the New Store on the second floor a live one, and here to stay, the public have followed this investigation and have learned that a Two Dollar Bill will do as much for them at the Live Store on The Second Floor as THREE or More will do elsewhere.

The public have also learned that there are no unnecessary extras added to the cost of the piano at the new store, no solicitors, collectors, or high rents, at this store they can save enough one one purchase to start a nice saving account, and yet get as good as can be made, and where a small deposit will deliver the piano allowing the balance to be paid at your convenience.

PROFIT ON STAMPS ATTAINED AT LAST

The highest stage of perfection in a vending machine for postage stamps has at last been attained. Heberd & Co. have in their drug store a slot machine from which stamps may be procured by inserting the necessary coin.

The stamps are contained in little tin clips which are attached to a revolving wheel. The coin which is inserted causes the wheel to turn by natural laws of gravity, until the clip containing the stamps is released and drops into the open space at the bottom of the machine where the purchaser can reach it. The machine is so constructed that there is a profit of 1 cent on every five cents worth of stamps which the machine

releases. Four one cent stamps may be had for five cents or by inserting a ten cent piece one may procure four two cent stamps. The machine is manufactured by the La Crosse Stamping Tool company of this city.

An Ideal Cough Medicine.

"As an ideal cough medicine I regard Chamberlain's Cough Remedy in a class by itself," says Dr. R. A. Wiltshire, of Gwynneville, Ind. "I take great pleasure in testifying to the results of Chamberlain's Cough Remedy. In fact, I know of no other preparation that meets so fully the expectations of the most exacting in cases of croup and coughs of children. As it contains no opium, chloroform or morphine it certainly makes a most safe, pleasant and efficacious remedy for the ills it is intended."

EASTER FLOWERS ABUNDANT HERE

"Some cities may be in danger of a lily famine this Easter but not La Crosse," said a local florist.

"Flowers have never been more abundant nor more beautiful. And the lateness of the season has done much to reduce prices."

"Easter is a day for lilies and special attention has been paid to them—not the stately Easter lily alone, but to the lovely calla lily and the dainty lily of the valley as well. Great care has been taken to have the lilies in bloom on Sunday. The hothouse temperature must be closely regulated."

The lilies are not the only flowers which have profited by the favorable weather. There is a profusion of

spirea hyacinths, hydrangeas and rhododendrons. Japanese and tropical plants of every description are said to be more abundant than ever and will be largely used in decorating.

GAME WARDENS MAY "LOSE THEIR SCALPS"

RADICAL CHANGES IN THE DEPARTMENT PROPOSED

TWO BILLS ARE PROPOSED

Stewart Would Abolish Office and Institute New County System of Wardens

MADISON, Wis., April 10.—(Special.)—Plans are being made for radical changes in the state game warden's department. Two bills are pending before the legislature, one for the abolition of the office, and the other for a county system. Upon one of these measures some of the members of the legislature expect to draft a substitute bill, which will greatly reduce the game warden force, if the bill is enacted into law.

The revelations before the senatorial investigating committee, of the manner in which the wardens participated in politics, have spurred members of the legislature to favor some changes, and it is said that the investigating committee will make a report to the effect that the warden force should be reduced. Assemblyman Roethe will make a contest before the legislature, it is said, for the passage of the repeal bill, using the testimony of wardens before the committee as a basis for his remarks.

Two Bills Pending.

Two bills are now pending before the legislature, either one of which can be molded into a substitute bill, which shall effect the change sought. One of the measures is the bill introduced by Assemblyman Stewart of Dane county, which provides for the abolition of the state game warden's department and a county system, the county board electing wardens, be substituted. The other bill is the repeal measure of Assemblyman Roethe of Grant county.

The law which will probably be favored by a number of the assemblymen, will probably reduce the force of game wardens to seven or eight salaried officials, with prescribed districts for work, and with duties clearly prescribed. The department will then be placed under the operation of the civil service law. One argument is being used for the retention of the department as a branch of the state government. This is that the fees collected from

hunting licenses be turned into a fund that will pay for the warden work. It is believed by some of the members of the legislature that under such a law, the game can be amply protected and a large amount of money annually go into the state treasury, which if unused shall go into the general fund.

BOMB OR DYNAMITE.

LONDON, April 10.—An explosion near St. EFTER in Rome injured 20 persons and destroyed a part of the Borgio Pio palace, according to a message to the Exchange Telegraph. It was at first reported that a bomb had exploded but later advice said that the explosion was a lot of dynamite that fishermen had stored to be used in the illegal killing of fish.

Cure for the Grip

Rest, warmth and quiet are the three sovereign remedies for this disease, and the best preventives of its secondary complications. Go to bed and remain in bed until well on the way toward recovery. Two or three days in bed when you first contract the disease is better than two or three weeks later on. Also take a double dose of Chamberlain's Cough Remedy to begin with and then the regular dose every hour. If it should nauseate, discontinue it until the nausea subsides and then take it in smaller doses or less frequently. Before going to bed take two of Chamberlain's Stomach and Liver Tablets and bathe the feet in water as warm as can comfortably be borne. Do not venture out until fully recovered.

Does your head itch? Is your coat or dress full of white flakes after dressing your hair? That's the effect of dandruff. Is your hair thinning? Are you beginning to get bald in spots? Are you already, in fact, rapidly becoming bald? If so, that is the effect of a nasty little parasite that burrows in at the root of the hair, and throws up the scalp in dandruff and eats off the hair at the root. Science's latest discovery is a destroyer of that pestiferous germ. That destroyer is contained in no other hair preparation on earth but Newbro's Herpicide. Try it, and be convinced. A delightful dressing. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

AT THE BIJOU

The most unique feature ever offered next week under the title of "Creo," "Creo," who has been designated the eighth wonder of the world by the press of the large cities in which she has been seen since her debut in this country has set the people of every city where she exhibited to agitating their grey matter in a way that bids fair to produce

something like a rational explanation of her mysterious creation from an ordinary three-legged wooden tripod, a plaster cast, a pretty dress and a luxuriant wig.

Rudyard Kipling, in his world-famous "Vampire," had a conception of woman created from "a rag, a bone and a hank of hair." R. A. Boehlke, a German mechanical engineer, took the great and clever versifier's conception as his inspiration for the invention of "Creo," and through his masterly ministrations, ac-

Stellar Role Next Week's Attraction at Theatre

Tomorrow, Easter Sunday, "The Runaways." It has been the rule, and decidedly not the exception, for a manager who puts forth a road company to seldom play a combination of a star and a Broadway success. It looks to him like wasting two good things, to have them work in conjunction, when they could be presented separately and each draw upon its respective merits and notoriety. But with the management of the "Runaways" the exception is adhered to, for a star is presented in connection with the piece, George Ovey, that tiny bit of humanity who is so gigantic in ability, is presented in the role of "Blutch," the jockey. But the good work does not stop there, because in the other leading roles are found well known musical comedy folks, including Francis Carrier, William Lennox, Louise Horner and Caroline Cantlon and is termed an all-star cast. Then there is the famed Casino beauty chorus, which is a bewitching, charming, dainty collection of femininity that is compelled to make the eyes sparkle with delight and the hands clasp in hearty appreciation. All this, theatergoers have in store for them at the La Crosse theatre tomorrow afternoon and evening.

ager Kopelberger will present five gold coins to whose written answers are nearest to a correct solution.

F. T. Whitbek left Thursday morning for Minnesota, where he is interested in a canning factory.

It is something over four years now since Charley Grapewin took up the stellar role in "The Awakening of Mr. Pipp" and the announced fact that the present one bids fair to be the greatest in financial returns he has yet had, indicates that the many performances he has given of this play have been marked with success else he would not now be written down close to the top of the list of popular favorites who have won favor in plays of musical flavor. Grapewin and Mr. Pipp are the announced attraction for the La Crosse theatre Monday, April 12, and neither star or play need the aid of fulsome puffery, they are both too well known and this season Mr. Grapewin has gathered about him a more than clever company; he has added new and attractive songs, retaining also the best of the song hits of former years. It is difficult to coin new phrases of encomium for an attraction that has drawn the best efforts from the most competent critics all up and down the land. Even, as good as ever is sufficient to say of it. One thing certain when the final curtain falls on "The Awakening of Mr. Pipp" the play will go down into theatrical history with a record that will have laughter written all over it in bold letters.

Miss Sydney Hall who has been spending a week's vacation with her parents, Dr. and Mrs. W. A. Hall, left Friday for Quincy, Ill., where she teaches in the high school.

PAUL GILMORE IN
"BOYS OF CO. B"

The great charm of Paul Gilmore's new play, "The Boys of Company B," is due to the youthfulness of the personages in the story. Tony Allen, Mr. Gilmore's character, is a young man of twenty-four; his sweetheart, Eileen MacLane, is twenty; Jim MacLane, her brother, is but a year older, and Pabe Carruthers, the football athlete, Arthur Stabler, the millionaire, George Bright, the beauty of the regiment, are all about Tony's age. Madge Blake, Eileen's pretty cousin, and Florence Henderson, her friend, are both under twenty-one and the entire Company B is composed of men in their early twenties. The older set of people, Major MacLane, Mrs. MacLane (Eileen's mother), C. Holbrook Allen (Tony's uncle), and Henry Stabler (Arthur's father), are put in chiefly as background for the young people, whose story it is. Gallant, intense, refined, subtle, humorous, "The Boys of Company B" attracts because of this well spring of youth that bubbles over on every occasion. It is the old immortal story of youth and beauty. The lovers must suffer for suffering intensifies the joys of fruition. But it is known that happy they are to be and trials, doubts, misgivings, heartaches—these are but stepping stones to the joys of the hour that comes to all faithful lovers. This is no problem play of base men and women of European entanglements, nor the drama of a company of psychological freaks, but a clean, healthy story of American young men and young women, who are enjoying to the full the pain as well as the pleasure of youth!

PRAIRIE DU CHIEN WIS

Fire broke out in the drying room of the Kuchenbecker steam laundry Friday morning, and only the prompt and well directed efforts of the fire department prevented serious loss. The laundry is located in the Cecka building on Minnesota street, and a number of other frame buildings stand close to it. Mr. Kuchenbecker's loss is covered by insurance.

The city council has contracted to furnish two hundred and fifty cubic yards of crushed rock to Sacred Heart college to be used in making pavements and road ways in and around the college grounds. The crusher is now in operation at the city quarries.

Stiff Neck

Stiff neck is caused by rheumatism of the muscles of the neck. It is usually confined to one side, or to the back of the neck and one side. While it is often quite painful, quick relief may be had by applying Chamberlain's Liniment. Not one case of rheumatism in ten requires internal treatment. When there is no fever and no swelling as in muscular and chronic rheumatism, Chamberlain's Liniment will accomplish more than any internal treatment.

How I Keep My Hair Young
and Beautiful

(By Mabel Graham.)

I know that every woman desires beautiful hair, and if they will follow my rules they will have as long, soft and fluffy hair as I have. In the first place I wash my head well once or twice a month with a shampoo made as follows: Take half of a ten-cent cake of pure castile soap, shave fine, dissolve this in half a pint of water with aid of gentle heat; when dissolved beat in the yolk of one egg and juice of one lemon; stir until cold. Rub a little of this into the roots of the hair, and rinse thoroughly with warm water and dry. I also use a quinine hair tonic freely, which keeps the scalp clean and the hair in a beautiful and healthy condition, and is especially good for dandruff and falling hair. I find the best tonic can be made by mixing a half pint of alcohol with half a pint of water and adding one ounce of beta quinol (liquid). This makes a quinine hair tonic better than the high-priced imported makes, and a whole pint only cost 65 to 75 cents. I am sure if every lady will try this recipe they will always have young and beautiful hair, and plenty of it.

HANSON UNDECIDED
IN SCHNELL CASE

CANDIDATE IS NOT READY TO
MAKE ANY STATEMENT

PNION S. L. V. N. L. Y. D. V. D.

Lawyers Claim Place Would Be Vacant If Republican Candidate Would Fail Contest Result

Whether Carl Hanson, republican candidate for board of public works who was defeated at the election by a narrow margin by Fred Schnell, will take advantage of his opportunity to contest the election of Schnell owing to the fact Schnell and Falk reside in the same ward, has not yet been decided by Mr. Hanson. He declared today he was not prepared to say what his action would be, just at the present time. The charter provides against two members of the board of public works coming from the same ward, and Mr. Schnell is elected from the same ward in which Commissioner Falk resides, thus creating the pretext for a contest and the claim by some lawyers that Schnell is therefore disqualified.

Friends of Schnell claim he can qualify by moving into another ward, but there are some among the attorneys who claim this will not make his eligibility to qualification. They assert it would be the same as electing for mayor of La Crosse a man who lived in Onalaska, then permitting the person to move here after election ten days ahead of his inauguration and thus qualify.

A prominent attorney this morning said that he has found an identical case in Michigan court records and that the court held that the elected man could not qualify by moving to a different ward, but that he must comply with the law before, and not after the election.

Much interest attaches to the decision of Mr. Hanson, as otherwise Schnell will doubtless be allowed to move out of the ward and qualify for the office. If Hanson contests the election, the case will be taken before the circuit court for a decision and if Schnell is ruled out of office the council would have to fill the place.

SAY PHONE MEN SAVED SALOONS

"DRY" ADVOCATES OF ONALASKA KA TO PROTEST

ELECTION MAY BE CHANGED

Poor Commissioner Aiken Says Prohibitionists May Contest License Vote

Owing to the fact that a number of telephone linemen in the First ward of the city of Onalaska voted in the last election, A. E. Smith, Ed Berg and A. Merrill, leading prohibitionists of that city, may contest the election.

The contestants claim that the linemen never had legal residence in the city, but that they simply made it their headquarters for a few months. Without this vote it is their contention that the city would have gone dry, as the wets carried the election by the narrow margin of five votes.

The Onalaska officers take their seats on the first Tuesday in May, and at this time a protest may be made.

Poor Commissioner Aiken, who resides in Onalaska, said today that no definite action has been taken, but that the matter is being investigated and much talk is heard.

Three Winona Y. M. C. A. boys finished their "hike" to St. Paul. They visited La Crosse.

THE JURY ACQUITS GEORGIA SAMPSON

WOMAN HELD NOT GUILTY OF HUSBAND'S MURDER

SHE TELLS HER STORY NOW

Loved Husband and Slaved for Him—Guilty of No Wrong to Him

LYONS, N. Y., April 10.—Surrounded by her family and friends, Mrs. Georgia Sampson is today very happy over her vindication at the hands of the jury that last night declared her innocent of causing the death of her husband, Harry Sampson, and in a statement this morning explained that she had always been confident that her innocence would be shown to the world. Incidentally she set at rest reports that have been in circulation for the last 24 hours that Harry Sampson was killed in a scuffle with her while she was trying to get the gun away from him.

"Only God knows what I suffered," she declared tearfully today, "but I stood it all for the sake of my father and mother. I am young and they are old. I was willing to bear it but they also suffered. On the Saturday before my husband's death I had been to Rochester and when I came down stairs I left my good clothes in the room upstairs. When I came down in the morning Harry was still wrangling. I was excited and don't remember what was said. Father told me to go upstairs and keep still. I was hurt and went away. I first went into the east room upstairs and stood by the window. Then I went to gather up the clothes I had worn to Rochester and put them in the clothes press. It was there I heard the outcry. It was about 8 o'clock. I ran down stairs as fast as I could and saw Harry lying on the floor. He could not speak to me.

"You know the rest. I am innocent of any wrong in connection with my husband's death. I never wronged Harry in my life. I slaved for him, raised chickens to help him, raked hay with him to save expenses and I loved him more than my life."

CHARGE ILLEGAL VOTING IN SPARTA

SPARTA, Wis., April 10.—(Special.)—There is a great deal of talk in Sparta concerning the slack method by the officials at the polls and the candidates for various offices besides the "dry" faction are talking of contesting the votes of two of the wards.

In the first ward when the ballot boxes were opened after the polls closed there were found in the license box some 150 votes on high and low license used at the election last fall at which time Sparta voted to increase the license fees to \$800 per annum. This occurrence goes to show that the ballot boxes were not properly inspected in that ward.

In the Fourth ward it is claimed that no polling list was kept on the license or band propositions, and rumor has it that there was illegal voting in the third ward, and that employees of the American Tobacco company who reside outside of the city voted in that ward.

"Cancer is certainly fine. I gave a friend one when the doctor was treating him for cancer of the stomach. The next morning he passed four pieces of tape worm. He then got a box and in three days he passed a tape worm 48 inches long. It was Mr. Matt Preck of Millersburg, Des Moines Co., Ia. I am quite a worker for Cancer. Chicago Grain

CHICAGO, April 10.—Just before the close of the market today July and September wheat both soared wildly, both selling at new high records for the crop. July went to \$1.15 and September to \$1.14.

11 a. m.—Patten continued to sell May wheat freely, but the market failed to decline materially, fluctuating between \$1.24 and \$1.25 1/2. Corn developed a weak turn.

Close.—In the last half hour May wheat was lost sight of in the wild scramble to buy July and September wheat. This was precipitated by Patten who bought both freely. May closed at \$1.25 1/2, July at \$1.15 and September at \$1.07 1/2. Corn and oats both recovered from the early weakness and closed strong.

SOCIETY

Holy week, cooking demon-
strations and the needle work display
have had rather their effect upon so-
ciety the past week. Now that the
restrictions of the Lenten season are
gone it is sincerely hoped that the
society dames will once more open
their hearts and homes to their
friends and entertain them right roy-
ally. All are hoping for a bright and
beautiful Easter Sunday when they
can appear at church in their new
and striking toilets and after service
they can appear upon the streets and
display them to the admiring public.
There will be special services in
all of the churches which have been
beautifully decorated and fine music
will be given appropriate to the day.

ANNOUNCEMENT.

The Ladies' Aid society of the Eng-

lish Lutheran church will meet next
Wednesday afternoon. Mrs. E. Olson
will serve.

CANTATA PROVES

REAL PLEASURE
The cantata at the Congregational
church Thursday was attended by a
very fair audience which fully ap-
preciated this musical program, al-
though prevented from showing ap-
proval by special request of the con-
ductor. The program opened with
Hand's Largo in G performed by
the orchestra with Prof. Cawley at
the organ. Following this, Rev.
Henry Faville gave a short address
on the cantata, "Penitence, Pardon
and Peace," mentioning the religious
phase as being especially appropriate
at this time of the Lenten season,
and closing with the suggestion that
this program and others of similar
nature would lead to the growth of
a larger interest being taken in clas-
sical musical events. The cantata

was given by combined choirs of the
First Congregational and Christ
churches and the pupils of La Crosse
School of Music, with Prof. Harry
Packman conductor, Harry A. Ross,
leader of the orchestra, and Prof.
Cawley at the organ. The work of
the chorus was very smooth and
given with a spirit that plainly dis-
played the enthusiasm felt by the
chorus. Miss Weimer surprised
even her most ardent admirers, sing-
ing her solos with pure, clear tones,
showing depth of understanding.
Messrs. Zeilke and Whelpley, who
also had solos, acquitted themselves
most ably and gave entire satisfac-
tion to the audience. The violin
solo by Harry A. Ross was rendered
with artistic ability and proved in-
spiring and uplifting to his audience.
Mr. Ross is certainly an artist of un-
usual merit and La Crosse may well
feel proud of him as a resident. The
program closed with the rousing
march, "Cornelius" by Mendelssohn.
Prof. Packman proved himself a
most able conductor, the coloring and
shading displayed by the chorus was
really surprising. Much credit is
due the conductor for his persever-
ance in continuing to place before
La Crosse audiences programs of
classical music. Prof. Cawley de-
serves special mention for his fine
accompaniment at the organ.

CANTATA AT ONALASKA

The sacred cantata, "Jerusalem,"
which was presented at the Methodist
church in Onalaska last night was a
success artistically and also finan-
cially. The cantata was given under
the auspices of the Philatene society
of the church and the proceeds of the
entertainment will go to defray the
expenses of building a new base-
ment under the church.

The cantata was given under the
personal direction of Miss Anna Aiken,
the organist for the evening being
Miss Hope Williams. One of the fea-
tures of the evening was the part
which was taken by a chorus of about
25 young children. The choir of the
churches in the city kindly assisted
in the rendition of the cantata. The
affair was a success in every way the
singing being above the usual qual-
ity heard in amateur performances.

CHAS. ZETTEL KEPT DIARY OF TRAVELS

BALISE CONTAINING BELONG-
INGS OF DEAD MAN HERE

HAD TRAVELED OVER WORLD

Notes Showed He Had Visited Many
Parts of the United States and
Europe Also

A valise belonging to Charles Zet-
tel, the man who was found dead be-
tween two baggage cars about two
weeks ago at Grand Crossing, was
received here by Judge Kleeber from
Roadmaster Olson at Aberdeen. The
valise contained many letters to
friends and to his father, John Zet-
tel, in Vienna, and to an uncle in an-
other Austrian city. The valise con-
tained a diary in which the dead
man had written quite extensively,
showing where he had traveled and
what he had been working at during
the past two years. It was found
that he had been over the greater
part of the United States, always
working, and in Canada, as well as
over a large part of Europe.

Judge Kleeber has written to the
parents of the deceased man in
Vienna, telling of his death and re-
questing instructions as to the final
resting place of the body, which is
now in the potter's field of the Oak
Grove cemetery.

Mr. F. G. Fritts, Oneonta, N. Y.,
writes: "My little girl was greatly
benefitted by taking Foley's Orino
Laxative, and I think it is the best
remedy for constipation and liver
trouble." Foley's Orino Laxative is
best for women and children, as it is
mild, pleasant and effective, and is a
splendid spring medicine, as it
cleanses the system and clears the
complexion. O. T. Erhart.

MAKE TELEPHONES CONNECT LINES

NEW BILL WILL PUT COMPANIES
UNDER PUBLIC UTILITIES

DIFFERS FROM CLEARLY BILL

Commission Will Have the Power to
Order Service Improved if Either
Company Gives Poor Service

MADISON, Wis., April 10.—Plans
are being made to introduce through
the assembly committee on transpor-
tation a new bill that will take the
place of the Cleary measure putting
the telephone companies of the state
under complete operation of the pub-
lic utilities law. The new bill is re-
surrected from the session two years
ago and provides for physical con-
nection between telephone com-
panies. In other words when there
is one company operating in a city
and another line wishes to enter the
city it can compel the line operating
in the city to connect with it.
The bill came before the legisla-

ture two years ago as a part of the
public utilities law, but this bill
was defeated by the independent tele-
phone companies. It is said at this
session such opposition will not ap-
pear, since the railroad rate com-
mission would compel all companies
to give good service at reasonable
rates.

Another point that is made in fa-
vor of a substitute bill for physical
connection between telephone com-
panies is that if one of the connect-
ing lines offered poor service the
commission would have power to order
this service improved.

The Cleary bill that was given a
hearing some time ago was in a dif-
ferent form than the one to be now
proposed. The Cleary bill provided
that where one company was operat-
ing in a city, another company should
not be given a permit to operate in
the city, without first having obtain-
ed a certificate of public convenience
and necessity from the railroad com-
mission. This would practically de-
stroy competition with the business
of some of the railroad companies.
There is a strong sentiment in favor
of the substitute bill.

CANVASS IS COMPLETE — The
canvass of election returns by the
county board of election canvassers

ficial figures have been sent to
